Ethernet Touch Panel
Suits C-Bus Automation Controllers
Product Data Sheet

Ethernet Touch Panel

The Ethernet Touch Panel is an on-wall device providing the visualisation capabilities (user interface) for the C-Bus Automation Controllers. Alongside PCs, tablets and mobile devices, the Ethernet Touch Panel is perfectly suited to the Ethernet based solution architecture as required by the new C-Bus Automation Controllers.

Featuring a 10.1 inch colour screen, the Ethernet Touch Panel allows users to easily and conveniently monitor and control their C-Bus system from a central location.

The Ethernet Touch Panel is powered by an external 12 Vdc power supply unit (purchased separately). The panel also supports power over Ethernet (PoE) for single cable operation.

The Ethernet Touch Panel is easily installed into solid or cavity walls using the custom-made wall box (purchased separately). The White fascia supplied with the Ethernet Touch Panel completes the installation resulting in a neat, flush finish.

The Ethernet Touch Panel is also supplied with a surface mount bracket for installation directly onto wall surfaces.

Ethernet Touch Panel

Product	Description
5000ETP10W	Ethernet Touch Panel, 10 inch, includes White fascia
5000ETP10WB	Flush Mount Wall Box for 10 inch Ethernet Touch Panel

Technical Specifications

Ethernet Touch Panel

Description	Specification
Diagonal screen size	10.1 inch
Panel resolution	1280 x 800 pixels
Brightness	300 cd/m²
Contrast ratio (typical)	800:1
Aspect ratio	16:9
Response time (typical)	30 ms
Viewing angle (horizontal & vertical)	170 degrees
Display colours	262,000 colours
Power supply (DC or PoE)	12 Vdc (+/- 5%), 1.5 A PoE (802.3af), 15 W
Standby power consumption	<0.5 W
Power consumption	6 W (typical)
Temperature range (operation)	0 ~ 40 °C

Mechanical Specifications

Wall Box

Description	Specification
Material	1.2 mm mild steel, powder-coated in textured black
Dimensions (WxHxD)	293 x 196 x 63 mm
Cut-out dimensions	295 x 200 mm
Clamping arm span	18 mm
Mounting plasterboard thickness	9 – 34 mm

Fascia

Description	Specification
Material	Acrylic
Colour	White
Mounting	Magnetic
Dimensions (WxHxD)	316 x 220 x 6 mm
