GT

The new generation
Hands-free colour
video intercom

 **AIPHONE**®
Providing Peace of Mind

UNIVERSALITY

GT: the new generation hands-free colour video intercom

By imagining the GT series, we have set two goals.

Provide universal functions.

Design a hands-free video intercom, capable to have an universal panel + monitor, adapted to each type of construction: public, private, renovation.

GT : Green Tech!

Comply to the ISO 14001 standard, our new range satisfies, in fact, the strict environmental requirements (Ex. RoHS, etc.).

GT : Great Tech!

Aiphone design, reliability, quality:

GT inherits all the features from the GF and GH series, while offering significant technological innovations for your satisfaction.

Mono-block panel

Solid, simple, friendly ... Our Mono-block panel is designed for intensive usage requirements. Compact, made of high-quality vandal-proof stainless steel, it provides excellent user comfort.

Colour display with presence detector, 170° wide-angle camera and voice announcement are some of the innovative features of this product range.

RELIABILITY

- High definition colour camera
- 170° horizontal and 100° vertical wide angle
- Night illumination

- 3.5 LCD colour display
- Pictogramme display of operations
- Voice announcement
- Embossed Buttons

- Motion detector
- LCD display activation

Modular panel

Design, comfort, flexibility ... Thanks to a unique style, the modular panel elegantly signs your new or already existing works. It has notably its high contrast visual display.

Proposing state-of-the-art finishes, such as the noble aspect of brass, the brilliance of chromium, or the simplicity of nickel matt, the modular panel is the ideal solution for customizing your projects.

FLEXIBILITY

- High definition colour camera
- 170° horizontal and 100° vertical wide angle
- Night illumination

- Embossed button
- Backlit pictogrammes

- Pictogramme display of operations
- Voice announcement

Monitors

Freedom, functionalities, quality ... Whatever the projects you have: prestige, comfort, standard, economic, ..., our various range of monitors, with various applications and finishes, offers you a tailored solution.

Provide you the free choice of the monitor within the same installation: high-range with picture memory, hands-free or handset.

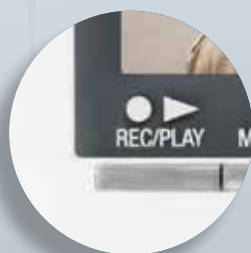

The GT series offer you the quality of the Aiphone colour, as well as a complete remarkable options.
